## RFID based solution

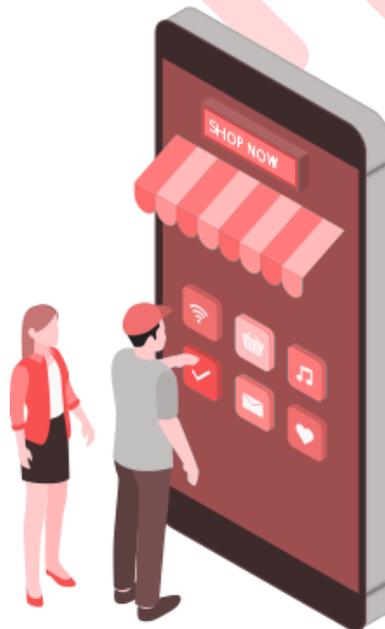

One of the key strength of Digitalistic is the capacity to develop custom services & products which exactly caters to specific customer needs. In the case of RFID BASED inventory management system, we have developed our own custom application from ground-up for RFID hardware identification- and tracking systems, we also provide the optimal solutions to improve, simplify and automate RFID challenges for Garments, Agriculture, IT based asset, Pharmaceuticals & Aquaculture industries worldwide.

# Services

## Digital Signage/Kiosk

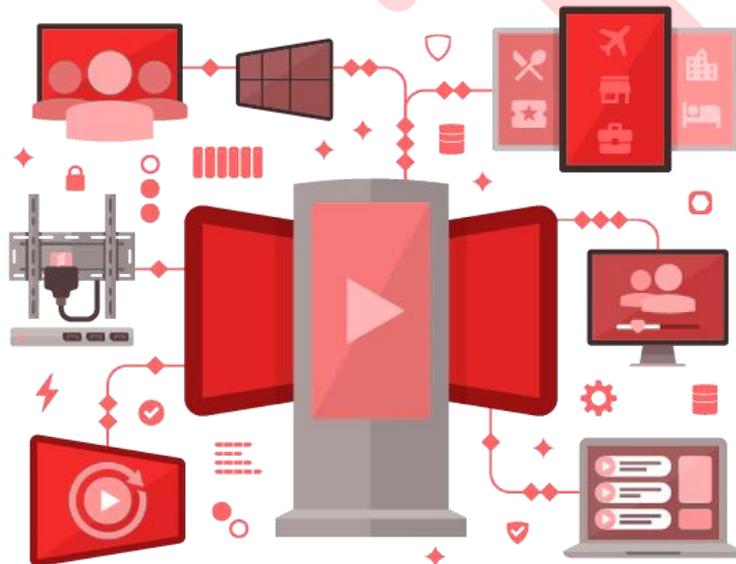

This amazing solution provides you with an alternate medium of Advertisement in a place of your interest. Digital Signage is basically a content distribution platform for delivering rich media content to one or more digital displays. These displays can communicate information like, news, TV, weather, menus, calendars, advertising all from any web browser, tablet or mobile device. Environments such as corporate buildings, retail stores, hotels and restaurants are becoming a common place for Digital Signage. Our in house developed powerful Digital Display Signage manager will provide unprecedented level of media/content management control at your fingertips.

## Digital Retail Solution

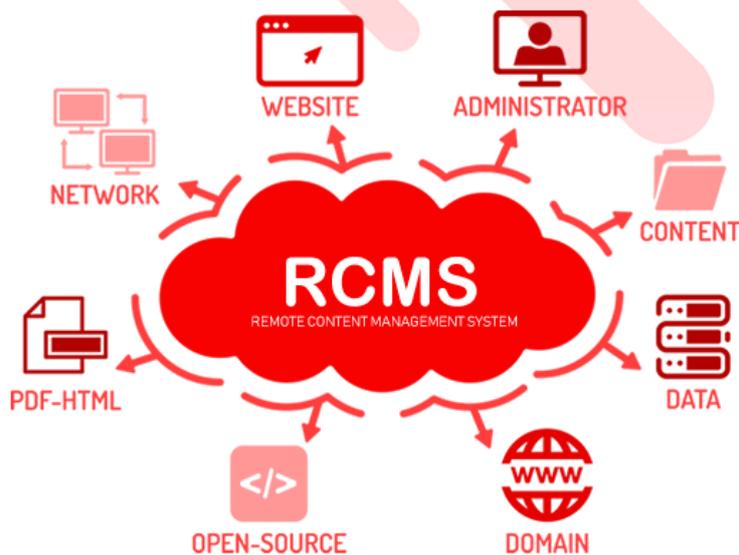

Our extensive array of engineers and developers are ready to take your existing retail business to a next level. With the help of interactive display, custom view, app integration and IOT based solution will help customers visualize the product and establish brand loyalty. Based on client's requirement we can accommodate to any type of custom solution which will cater to individual retailers.

## Remote Management

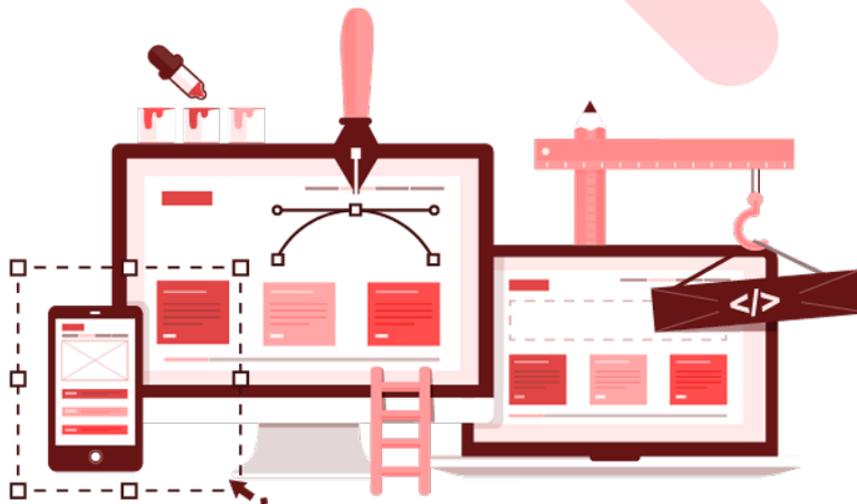

With our custom solution, it is possible to remotely deploy, control and analyze media content across all your customer-facing broadcast mediums, such as display panel, video wall or digital greeting systems, with REMOTELY-hosted content management system. This can be done from anywhere in the world. With endless possibilities, Digitalistic's Remote Management system is designed and developed to support any industrial need of web content creation, distribution, and ultimately remote management of rich contents, along with websites without compromising the web quality. It could be e-commerce pages or can be customized info catalogs, news pages, or more. Digitalistic's unique centralized control panel offers multiple tools to remotely control the distributed content through any mediums.

# Services
